How to use the tables to find your monthly payment

Find your basic rate

Go to the compensation rates for your disability rating. On the **Basic monthly rates** table, find the amount for your disability rating and dependent status. This is your basic monthly rate.

Example (Veteran with no children): If you're a Veteran with a 30% disability rating, and you have a dependent spouse (no dependent parents or children), your basic monthly rate would be \$617.47 each month.

Find your added amounts, if any apply

If your spouse receives Aid and Attendance benefits or you have more than 1 child, you may qualify for additional monthly payment amounts as listed in the **Added amounts** table.

[Learn more about Aid and Attendance benefits](https://www.va.gov/pension/aid-attendance-housebound)
(<https://www.va.gov/pension/aid-attendance-housebound>).

First, determine your basic rate.

Example (Veteran with children): If you're a Veteran with a 70% disability rating, and you have a spouse, plus 3 dependent children under the age of 18, you would start with the basic rate of \$2,074.45 (for a Veteran with a spouse and 1 child).

Next, look at the **Added amounts** table. Find the amount for children under age 18 (\$76.00).

Since your basic rate already provides payment for 1 child, you would add the rate of \$76.00 for each additional child (so $\$76 \times 2$).

If your spouse receives Aid and Attendance, you would also add \$141 (which is the added amount for a spouse receiving Aid and Attendance, for a Veteran with a 70% disability rating).

In our example of a Veteran with 70% disability rating, your total monthly payment amount would be:

\$2,074.45 basic rate (1 spouse, 1 child)

+\$76 (second child under 18)

+\$76 (third child under 18)

+\$141 (spouse who receives Aid and Attendance)

Total: \$2,367.45
